

«The port of Genoa is fully operational»

Genoa - «The port of Genoa will be able to regularly meet the demand for services related to the international traffic of goods and passengers, both on cruise ships and on ferries».

AUGUST 17, 2018

Genoa - «The port of Genoa will be able to regularly meet the demand for services related to the international traffic of goods and passengers, both on cruise ships and on ferries. The port will be able to operate at full capacity by adopting a series of immediate measures capable of compensating the damage caused to the motorway by the collapse of the **Morandi bridge** ». This was announced by Federagenti, the Federation of Italian Shipagents, together with its local association, Assagenti Genova.
