

To MSC and Coast the management of the crocieristici terminals of the ports of the Western Sicily

Monti: the current compages will be able to be increased to Royal Caribbean Cruises

infomARE - Crocieristiche companies MSC Crociere and Costa Crociere will have in concession the management of the crocieristici terminals in the ports of the Authority of Harbour System of the Sea of Western Sicily. It has decided this afternoon a commission that it has favorite, arguing of the motivations and in attended that the iter is concluded finalized to the release of the concession, the proposal of joint venture MSC-Coast to that introduced from Port Holding Operation srl and Global Ports Melita Limited, societies these last ones that make both to the Turkish group Global Investment Holdings (GIH) through Global Holding Ports (GPH).

The agreement with MSC and Coast will be formalized next 19 December in the course of the conference "We, the Mediterranean" to the presence of the minister of Infrastructures and the Transports, Paola De Micheli.

"We are happy - the president of the AdSP of the Western Sicily has commented, Pasqualino Monti - of the fact that shipowning societies that a lot they invest in the port of Palermo manage our terminals. We can speak about a carried out one that will guarantee the development of crocieristico tourism in our ports with unthinkable numbers only some month makes, fallen back occupational and a service of international level. Today the field from the Authority is recognized merit to the extraordinary put job that conjugates the imposing realization infrastructural works in the tightest times with the ability to promote of the functions on the domestic markets and international". "It is - it has added Monti - an important day for Sicily and, said for the Country, and I am convinced that when Royal Caribbean will begin, shortly, to scale our ports with its ships of greater tonnage, the current compages will be able to be increased, comprising, therefore, the three greater companies to the world in the field of the cruises". *(infomARE)*
