

Trasportounito, the recapitalization To interpose you Sicilian does not resolve the problems of the road haulage

Beautiful: confirmation instead the total inability of the Region to face the topic of mobility of the goods

infosMARE - The Sicilian regional committee, with provision 19th October, has deliberated the recapitalization of the Society of Sicilian Interposing you, that she manages interposing you of Catania and Termini Imerese, and the action previews the increase of the participation of the Region until the maximum of 100% of the capital of the interportuale society in the hypothesis of absence of subscription by the other associates for own quota. Successively the assembly of the associates, as confirmed from the president of the regional agency, Sebastiano Musumeci, has authorized the capital increase, pairs to 2,5 million euros, and the participation of the Region is gone up by 34% to 89%.

An increase of capital that the association of the Trasportounito road haulage has defined "inexplicable" and that "the total does not only resolve the operating problems of the road haulage but confirmation inability of the same Region, in a self-reference picture, to face strategically and in terms of priority the great topic of mobility of the goods from and for Sicily". In particular, the national coordinator to the intermodalità of Trasportounito Aitras, Salvatore Bella, has evidenced "as the absence of concertazione of the regional government with the categories and the operators in the field has produced the zero setting than of good it was realized in years precedence, bringing back behind pointers of the time for the road haulage and the logistic system in its complex".

"The directory of the conquests that were realized in the last decade and that now they are forgotten or abandoned - has explained Beautiful - is along and embarrassing: from the ecobonus based on the involvement of the enterprises, to the deep ones in order to realize traffic centres and to upgrade interposing to you; from the territorial continuity which fertile land on which to make to mature proposed new normative, I yield of a job of with and of regional Consulta of the road haulage that had characterized with clarity the priorities of the field in tightened connection with those of the industry and the ortofrutticolo".

"He is indispensable - it has concluded the spokesman of Trasportounito - than president Musumeci expresses with force the will to reactivate the instruments and the dialogue with the associative resources, in order to leave again from the results of 2013, and to throw again the intermodal road haulage, logistics and systems of which the Sicily it has most urgent need". *(info)*
