the associations of the operators evidence the necessity to take decisions in fast times

inforMARE - Shipping agents and shippers of asks the president of the Liguria Region to intercede between the Municipality of and the Authority of Harbour System of the Ligurian Sea Oriental, that it manages the harbour port of call of from Liguria city, in order to resolve the divergences between the two administrations on the realization of a new crocieristica station in the port breaks.

the Port Community La Spezia, to which the associations of the shipping agents are under responsibility, of the shippers and the customs brokers of the city it emphasizes that "the times for the choices - delayed also from the institutional transformations that have regarded is port that city - are by now terribly straits, and it is risked to giving an image to the customers of the port of city a harbour community and incapable to take decisions shared in acceptable times on a topic considered from all - the usual professionals excluded of not - like wide positive for the port and the city".

"As operators - Andrea Fontana explains, president of the Association Agenti - we cannot be esimere, also in the full respect of the functions and the competences, to recall the authorities to the truth of a situation of absolute emergency. We are in the know of the divergences of opinion and formulation between Municipality and Harbour Authority, but a thing is sure: we cannot afford to wait for that the divergences are transformed in a total consent. Own for this we have decided to ask the president of the Region Liguria, Giovanni Toti, to promote a moment of synthesis of the various positions with the declared objective to reach in times breviums a distance choice. A choice that allows with we to answer to the companies, being supplied times, clear indications and perspectives".

the three associations of the operators remember that "with expiring of the current concessions of the services of boarding, disembarkation and accessories to two societies APLS investments and Discover January 2018 will be the necessity beginning from 1° to guarantee the prosecuzione of the aforesaid attended activities in that the definitive plans are realized on the Pier Cruises. We consider - shipping agents and shippers specify - than the experiment in fast times of a public contest is the single percorribile road". (2/1)
